

Sustainable Development Goals

A large, stylized graphic of a target with an arrow hitting the bullseye. The target is composed of concentric circles in shades of blue and green, and the arrow is a solid blue shape pointing towards the center.

2022

Refine the circular business model

2022

Integrate babysitting lists and grocery shopping service all year long , not only at the start of the project

2022

Extend the 'stop smoking' project to our tenants

2022

New Upgrade Solidarity capital round to continue to guarantee access to assistance for tenants in need

2022

Pursue gender equality on the executive boards that represent the shareholders of the various asset management companies

2022

Preliminary studies of new timber construction projects

2022

Provide a composting bin at projects where it is not feasible to keep chickens

2022

Reduce waste by 10% in our buildings

2022

Reduce waste by 10% on construction sites

2022

Develop a sustainability plan for assets under management: investigate how we can compensate the operational CO2 emissions of realised assets under management

2022

Conduct a sustainability analysis on the CO2 emissions of all completed projects, both in terms of embodied carbon and operational carbon

2023

First specific project in CLT construction as proof of concept

2023

Final delivery of 'energy controlling' project: calibration of installations and monitoring of energy consumption in order to save energy AND make predictions regarding the consumption and maintenance of the installations

2023

Implement infarm.com in buildings

2024

Lower the energy consumption in our buildings by 10%

2025

Reduce the hard mobility (car use) of our team members up to 30%

	2025	The embodied carbon of our new construction projects should be halved (start with try-out, then roll-out)
	2030	Integrate neighbourhood parks and allotments into the larger projects
	2030	Make EV charging points available to local residents
	2030	Electrify 75% of the already realised assets under management
	2035	Work towards zero emissions of embodied carbon for new projects
	2035	Net CO ₂ neutral (on scope 1, 2 & 3)
	2040	Electrify 100% of the already realised assets under management
	Dream	Installation of a wind turbine under our own management with Limoengroen

Achieved actions since 2021

2021

Introducing a sustainability charter signed by all our partners

2021

Realise an action plan of the “upgrade diversity” project

2021

New capital round ‘Upgrade Solidarity’ to ensure accessibility to assistance for tenants in need

2021

Sustainable partnership: Agoria Solar Team

2022

2-day innovation trip about circular and sustainable construction with the construction coordination department

2021-2022

Create awareness among our contractors by conducting information sessions and webinars on the challenges of reducing embodied CO₂ emissions

2021-2022

Ter plaeten Upkot: re-commissioning of heat pump and beo field

2022

Sustainable partnership: Too good to Go

2022

From tree to construction: purchase of the first finnish forests with the aim of practising sustainable forestry management in order to produce our own timber for CLT construction

Okay
Let's do this
